

PathPoint VIP e-Blast February 2015

Dear Corinne,

This month, we've gotten more detail on the governor's budget that was released in January. Again, there was **nothing** for services for people with developmental disabilities.

It's scary how investment from state funding has fallen year after year.

This year we'll be meeting with our legislators to demand that they push back on the governor's budget. We **all** have an opportunity to regularly touch legislators and lobbyists through community activity. One example is the Lanterman Coalition's "10 for 10" campaign, which communicates your top reasons why the California Developmental Services Community System needs a 10% increase. Find out more information [here](#).

We want to activate our community from now until the state budget is adopted in June or July of this year. PathPoint is passionate about defending the basic safety net of services that people with developmental disabilities and their families depend upon.

Thank you for your support!

Sincerely,

Upcoming Events:
